CTSoC CEA TC All Member Meeting #1, 2023

- Yogesh introduced TC officers Dr. Bernard Fong (Chair), Dr. Jianlong Fu (Vice Chair) and himself (Secretary)
- Jinalong described objectives and mission of CEA TC
  - There is suggestion to add following specific domains
    - ADAS (Advanced Driver Assist Systems),
    - IVI (In-Vehicle Infotainment),
    - Connected Car / V2X communication,
    - Software Defined Vehicle
- Pass downs from TC officer's meeting 1 and 2
  - Yogesh walked through contents of meeting 1 and TC officers. Meeting 1 had focused on CTSoC as an entity, different TCs and TC objectives. CEA TC membership currently stands at 4% and there is good scope for improvement.
  - Meeting 2 focused on ICCE Las Vegas 2024, ICCE Berlin 2023 and GEM 2023 conferences and organizing opportunity for volunteers who want to participate.
- Short summary from latest Tech Talk / pointer to resources
  - Jianlong gave an excellent short summary of both technical talks that happened as part of the tech talk series. The next tech talk is on July 28th, SEA and SPC TCs will present. Jianlong encouraged CEA members to come forward for tech talk participation. Resource link was shared - https://ctsoc.ieee.org/technical/technical-talks.html
- Opens / Suggestions / QnA
  - It is encouraged to invite more industry members and grow the CEA TC - membership form is herehttps://ctsoc.ieee.org/technical/technical-committees-maf.html, please reach out in your industrial networks and look for expansion by including interested members willing to contribute.

Meeting recording available on demand – please reach out the TC Officers if interested.
